

HUD's income limits for the San Luis Obispo County area are in the table below. Only families meeting Extremely Low and Very Low Income standards are eligible for Section 8 assistance. Low Income standards are used only under certain circumstances, and for HASLO's Public Housing Program. Congress requires that 75% of new admissions to the tenant-based program and 40% of new admissions to the project-based programs be Extremely Low Income. The remaining new admissions may not exceed the Very Low Income limit.
